FÖRDERVEREIN DES WALTER BENJAMIN KOLLEGS AN DER UNIVERSITÄT BERN

Thinking and Research by Crossing Borders in the Walter Benjamin Kolleg

In the Kolleg researchers of different generations from the most diverse disciplines get in contact, learn from each other – the older from the younger ones and vice versa –, and thus teach themselves in the ability of interdisciplinary cooperation.

The Kolleg is named after the philosopher, cultural scientist, translator, and author Walter Benjamin, who received about 100 years ago his PhD title at the University of Bern.

Crucial is the complexity and originality of Benjamins work, which doesn't fit in just one category. Benjamin's thinking is an example of a critical and fearless intellectual position, which is today not less important than in his days.

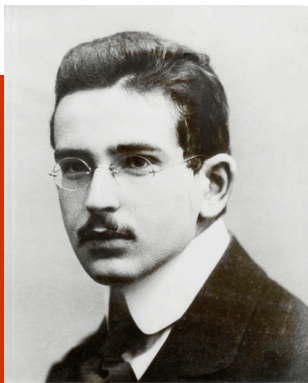

Förderverein

The "Förderverein des Walter Benjamin Kollegs an der Universität Bern" supports young researches and events of the Kolleg. For this, it is committed to public relations, acquisition of fundings and donations as well as the support of events.
